PREFACE

Volume III of the Eighth Census of Canada classifies the population of Canada as of June 2, 1941, by age to show sex, conjugal condition, racial origin, religious denomination, birthplace, length of residence in province and place of last residence, period of immigration and naturalization, citizenship, official language and mother tongue, school attendance and years of schooling, for provinces, rural and urban, for individual cities of 30,000 population and over, and, generally, for the metropolitan areas of Montreal, Toronto, Vancouver and Winnipeg. In addition, this volume contains a number of tables in which women ever married are classified by age to show age at first marriage, by (a) number of children born and number living for provinces and, in part, for cities of 30,000 and over, and (b) racial origin and birthplace of these women, for Canada, rural and urban. The process of cross-classification of the 1941 Census data on population will be continued in Volume IV where racial origin and birthplace are the principal subjects of cross-classification. In Volume II population data from the 1941 Census are published for smaller civil divisions and sub-divisions, but without cross-classification of any kind except by sex and by rural and urban. In Volume V statistics of dwellings, households and families will be found while in Volumes VI and VII data on earnings, employment and unemployment among wage-earners and data on occupations and industries of the gainfully occupied, respectively, are given.

The history and purpose of the census, the legislation under which it is taken, and the methods of collecting, checking and compiling the data, are described in detail in the Administrative Report on the taking of the census. Attention may be particularly directed to the section of this Report which outlines the general plan according to which the volumes of the census are being issued and explains the nature of the materials contained in the present volume and their place in the general scheme of publication.

PRÉFACE

Le volume III du Huitième Recensement du Canada classe la population du Canada, telle qu'au 2 juin 1941, par âge selon le sexe, l'état conjugal, l'origine raciale, la religion, le lieu de naissance, la durée de résidence dans la province et le dernier lieu de domicile permanent, la période d'immigration et de naturalisation, la citoyenneté, la langue officielle et la langue maternelle, la fréquentation scolaire et les années d'école, pour les provinces, régions rurales et urbaines, chaque ville de 30,000 âmes et plus et, en général, les zones métropolitaines de Montréal, Toronto, Vancouver et Winnipeg. Ce volume contient de plus un certain nombre de tableaux où les femmes ayant été mariées sont classifiées par âge selon l'âge au premier mariage, (a) le nombre d'enfants nés et le nombre d'enfants vivants, pour les provinces et, en partie, pour les villes de 30,000 âmes et plus, et (b) d'après l'origine raciale et le lieu de naissance de ces femmes, pour le Canada, rural et urbain. Le recoupement des données du recensement de 1941 sur la population se continue au volume IV où l'origine raciale et le lieu de naissance sont l'objet principal de recoupements. Au volume II, des données du recensement de 1941 sur la population sont publiées pour les petites divisions et sub-divisions civiles, mais sans recoupement d'aucune sorte sauf par sexe et par population rurale et urbaine. Le volume V contient les statistiques des logements, des ménages et des familles tandis que les volumes VI et VII présentent, respectivement, des données sur les gains, l'emploi et le chômage chez les employés à gages et des données sur les occupations et les industries des personnes actives.

L'histoire et l'objet du recensement, la loi en vertu de laquelle il est effectué, ainsi que les méthodes adoptées pour recueillir, vérifier et compiler les données, sont exposés en détail dans le rapport administratif sur la tenue du recensement. L'attention du lecteur est attirée particulièrement sur la partie de ce rapport qui trace l'ordre selon lequel sont publiés les volumes du recensement et explique la nature de la matière du présent volume et sa place dans le plan général.

The various tables of the present volume are grouped under the following general headings: Historical (tables 1-2), single years of age (tables 3-6), conjugal condition (tables 7-9), racial origin (tables 10-13), religious denomination (tables 14-17), birthplace (tables 18-21), length of residence in province (tables 22-24), place of last permanent residence (tables 25-27), period of immigration (tables 28-32), period of naturalization (table 33), citizenship (tables 34-35), official language (tables 36-40), mother tongue (tables 41-43), school attendance and years of schooling (tables 44-50), and age at marriage, by children born and living and by racial origin and birthplace, of women ever married (tables 51-57).

A brief introduction sets out various definitions and explanations, and in appendices will be found a copy of the questionnaire used in the enumeration of the population, and descriptions of metropolitan areas used for presentation of results.

The organization and general planning of the 1941 Census was carried on under the direction of A. J. Pelletier, F.S.S., who up to the date of his retirement on superannuation in 1944 was Chief of the Census Branch. In May, 1942, Mr. Pelletier was seconded to the Government of Jamaica. Hence the tabular matter for this volume was compiled under the direction of O. A. Lemieux, M.S.A., Ph.D., Chief of the Census Branch, assisted by A. H. LeNeveu, M.A., Statistician in charge of the Population and Occupations Sections of the Branch, and N. Keyfitz, B.Sc., Statistician, Census Branch.

Dominion Statistician.

Les divers tableaux du présent volume sont groupés sous les rubriques générales suivantes: historiques (tableaux 1-2), chaque année d'âge (tableaux 3-6), état conjugal (tableaux 7-9), origine raciale (tableaux 10-13), religion (tableaux 14-17), lieu de naissance (tableaux 18-21), durée de résidence dans la province (tableaux 22-24), dernier lieu de domicile permanent (tableaux 25-27), période d'immigration (tableaux 28-32), période de naturalisation (tableau 33), citoyenneté (tableaux 34-35), langue officielle (tableaux 36-40), langue maternelle (tableaux 41-43), fréquentation scolaire et années d'école (tableaux 44-50), et âge au mariage, selon les enfants nés et vivants et par origine raciale et lieu de naissance, des femmes ayant déjà été mariées (tableaux 51-57).

Diverses définitions et explications sont données dans une brève introduction tandis que dans les appendices se trouvent une copie du questionnaire ayant servi à l'énumération de la population, de même que la description des zones métropolitaines utilisées pour la présentation de certains résultats du recensement.

L'organisation et la préparation générale du recensement de 1941 ont été effectuées sous la direction d'A. J. Pelletier, F.S.S., qui lors de sa mise à la retraite en 1944 se trouvait chef de la Branche du Recensement. En mai 1942, M. Pelletier a été prêté au gouvernement de la Jamaïque. La matière des tableaux de ce volume a ensuite été compilée sous la direction d'O. A. Lemieux, M.S.A., Ph.D., chef de la Branche du Recensement, assisté d'A. H. LeNeveu, M.A., statisticien en charge des sections de la Population et des Occupations de la Branche, et de N. Keyfitz, B.Sc., statisticien, Branche du Recensement.

INTRODUCTION

In the tables of Volume III the population of Canada as of the census date, June 2, 1941, is classified according to age to show sex, conjugal condition, racial origin, religious denomination, birthplace, length of residence in province and place of last residence, period of immigration and naturalization, citizenship, official language and mother tongue, school attendance and years of schooling, for provinces, rural and urban, for individual cities of 30,000 population and over, and, generally, for the metropolitan areas of Montreal, Toronto, Vancouver and Winnipeg. In addition, women ever married are classified by age to show age at first marriage by number of children born and living, for Canada and the provinces, rural and urban, and, with the exception of data on children living, for cities of 30,000 population and over. Women ever married are also classified by age to show age at first marriage by racial origin and birthplace for Canada, rural and urban.

The following sections consist of census definitions of the subject matter appearing in the tables of this volume:

Rural and Urban Population.—For census purposes the rural population is all the population living outside of the boundaries of incorporated cities, towns or villages. This population may reside in organized rural municipalities, townships or parishes or it may reside in areas which are unorganized. Descriptions of the rural areas in each province will be found in Appendix B to Volume II.

The urban population, on the other hand, is the population residing within the boundaries of incorporated cities, towns or villages. A description of the metropolitan areas of Montreal, Toronto, Vancouver and Winnipeg will be found in Appendix B of this volume.

Age.—The instructions to enumerators specified that the age to be reported for every person one year old or more was to be in completed years at the last birthday. In the case of infants under one year the entry was to be expressed in completed months as twelfths of a year. A fifteen-day-old child would thus be reported as $\frac{1}{12}$ and in the case of one who was two months and ten days old, the entry would be $\frac{2}{12}$.

Age-assignment.—It will be noted that in all the tables classifying the population by age, there are no unstated ages. In this census, as well as in any past census, enumerators have, in some instances, neglected to enter the age of the person. In the 1941 Census, ages were assigned in all such cases. The number thus assigned was 5,606. The method followed for the assignment is described in detail in Volume I where it may be consulted.

INTRODUCTION

Dans les tableaux du Volume III, la population du Canada, telle qu'à la date du recensement, le 2 juin 1941, est classifiée par âge selon le sexe, l'état conjugal, l'origine raciale, la religion, le lieu de naissance, la durée de résidence dans la province et le dernier lieu de domicile permanent, la période d'immigration et de naturalisation, la citoyenneté, la langue officielle et la langue maternelle, la fréquentation scolaire et les années d'école, pour les provinces, régions rurales et urbaines, chaque ville de 30,000 âmes et plus et, en général, les zones métropolitaines de Montréal, Toronto, Vancouver et Winnipeg. De plus, les femmes ayant été mariées sont classifiées par âge d'après l'âge au premier mariage et d'après le nombre d'enfants nés et vivants, pour le Canada et les provinces, régions rurales et urbaines, et, à l'exception des données sur les enfants vivants, les villes de 30,000 âmes et plus. Les femmes ayant été mariées sont aussi classifiées par âge selon l'âge au premier mariage et par origine raciale et lieu de naissance pour le Canada, rural et urbain.

Les sections suivantes comprennent les définitions, aux fins du recensement, de la matière paraissant dans les tableaux de ce volume:

Population rurale et urbaine.—Pour les fins du recensement la population rurale est celle vivant en dehors des limites des cités, villes ou villages incorporés. Cette population peut vivre en des townships, paroisses ou municipalités rurales organisées ou vivre dans des régions non organisées. La description des régions rurales de chaque province se trouve à l'appendice B du Volume II.

D'un autre côté, la population urbaine est celle qui demeure dans les limites de cités, villes ou villages incorporés. Une description des régions métropolitaines de Montréal, Toronto, Vancouver et Winnipeg se trouve à l'appendice B de ce volume.

Age.—Les instructions aux énumérateurs spécifient qu'il fallait inscrire l'âge de toute personne d'un an ou plus en années complètes lors du dernier anniversaire de naissance. Dans le cas des enfants au-dessous d'un an, l'entrée devait être exprimée en mois complets ou douzième d'année. Un enfant de quinze jours de cette manière devait être inscrit comme ayant $\frac{1}{12}$; dans le cas d'un enfant de deux mois et dix jours, l'entrée devait être $\frac{2}{12}$.

Attribution d'âge.—On notera que dans tous les tableaux classifiant la population par âge, il n'y a pas d'âge non déclaré. Dans ce recensement, aussi bien que dans les recensements antérieurs, les énumérateurs ont dans certains cas négligé d'entrer l'âge de la personne. Dans le recensement de 1941, les âges sont attribués dans chacun de ces cas. Le nombre de ceux-ci est de 5,606. La méthode suivie pour cette attribution est décrite en détail dans le Volume I.

Conjugal Condition.—In 1941, the classification of conjugal condition was extended to show persons who were married but who were separated permanently for domestic reasons though they were not divorced. This class of persons is termed "Permanently Separated".

Racial Origin.—The enumerators were required to ascertain the racial origin of each person. The term "racial origin", for census purposes, has mainly a cultural and geographical implication; it suggests whence our people came and their implied cultural background. In other words, it deals with the sources from which the Canadian population has been derived.

There has been, at times, a certain amount of confusion between "racial origin" and "nationality". The confusion arises from the fact that the term "Canadian" is not accepted to describe racial origin; the contention being that there is not, as yet, a well-defined Canadian race. It should be remembered, however, that while there is no "Canadian" race, there is a well-defined Canadian nationality and that while the term "Canadian" is not acceptable to describe racial origin, it is essential to describe nationality.

In tracing origin in the case of persons of European descent, the line is through the father. By applying this rule, those of mixed family origin are resolved with a fair degree of accuracy into their constituent elements.

For persons belonging to stocks involving difference in colour (i.e., the black, yellow and brown races) the entry was Negro, Japanese, Chinese, Hindu, Malayan, etc., respectively; orientals being thus segregated by country of origin.

In the case of children begotten of marriages between white and black, white and Chinese, etc., the entry under racial origin was Negro, Chinese, etc.

For the Canadian aborigines, the entry was Indian or Eskimo and for persons of white and Indian blood the entry was "Half-breed".

Religion.—Enumerators were instructed to enter for each person the religion professed, specifying the religious body, denomination, sect or community to which the person adhered or belonged. Enumerators were warned against the use of indefinite terms. Nevertheless, in some instances enumerators have reported the word "Protestant" not to mean a separate religious body but simply to mean that the person belonged to one of the Protestant denominations and "Protestant" as a separate religious denomination was included in the various tables. The reader should keep this fact in mind when studying Tables 14, 15, 16 and 17.

Birthplace.—Enumerators were instructed to report the birthplace as follows:

1. *Born in Canada.*—In the case of persons born in Canada, the name of the province or territory was to be entered on the schedule.

2. *Born in the British Isles.*—It was not sufficient to enter Great Britain or British Isles in the case of these persons, but the particular country, such as England, Scotland, Northern Ireland, Eire, Isle of Man, etc., was to be returned.

État conjugal.—En 1941, la classification de l'état conjugal a été étendue pour indiquer les personnes mariées, mais qui sont séparées en permanence pour des raisons domestiques, bien qu'elles n'aient pas divorcé. Cette classe de personnes est décrite "Séparées en permanence".

Origine raciale.—Les énumérateurs devaient s'assurer de l'origine raciale de chaque personne. L'expression "origine raciale" pour fin de recensement a une implication culturelle et géographique. Elle donne une idée des origines de notre pays et de l'arrière-plan culturel; en d'autres termes, elle aide à trouver les sources de la population canadienne.

Il y a eu, à certains temps, de la confusion entre origine raciale et nationalité. La confusion vient de ce que l'expression "Canadien" ou "Canadienne" n'est pas acceptée pour décrire l'origine raciale, vu la prétention qu'il n'y a pas encore une race canadienne bien définie. Il faut se rappeler toutefois que, s'il n'y a pas de race canadienne, il y a une nationalité canadienne bien définie et que, si le terme "Canadien" n'est pas acceptable comme description de l'origine raciale, il est essentiel à la description de la nationalité.

En retraçant l'origine d'une personne d'ascendance européenne, c'est la lignée mâle qui est suivie. En suivant cette règle, il est assez facile d'établir avec un certain degré d'exactitude les éléments des familles d'origines mixtes.

Pour les personnes de races impliquant une différence en couleur (telles que les races noires, jaunes et brunes) l'entrée est Nègre, Japonais, Chinois, Hindou, Malais, etc., respectivement, les Orientaux étant ainsi séparés par pays d'origine.

Dans le cas d'enfants issus de mariages entre blancs et noirs, blancs et Chinois, etc., leur origine raciale est entrée comme Nègre, Chinois, etc.

Pour les aborigènes canadiens, l'entrée est Indien ou Eskimo et pour les personnes issues de blancs et Indiens, l'entrée est "Métis".

Religion.—Les énumérateurs devaient entrer pour chaque personne la religion qu'elle professait, spécifiant le corps religieux, la dénomination, secte ou communauté à laquelle elle adhérait ou appartenait. Les énumérateurs avaient été prévenus contre l'emploi de termes indéfinis. Néanmoins, dans certains cas, les énumérateurs ont attribué le mot "Protestant" non pas comme désignant un corps religieux séparé, mais signifiant que la personne appartenait à une dénomination protestante et "Protestante" comme dénomination religieuse distincte a été incluse dans les différents tableaux. Le lecteur doit tenir compte de ceci en étudiant les tableaux 14, 15, 16 et 17.

Lieu de naissance.—Les énumérateurs avaient instruction d'inscrire le lieu de naissance comme suit:

1. *Né au Canada.*—Dans le cas de personnes nées au Canada, le nom de la province ou du territoire doit être entré dans le cahier.

2. *Né dans les Îles Britanniques.*—Il n'était pas suffisant d'entrer Grande-Bretagne ou Îles Britanniques dans le cas de ces personnes, mais le pays particulier, tel qu'Angleterre, Écosse, Irlande du Nord, Eire, Île de Man, etc., devait être entré.

3. *Born in Continental Europe.*—For persons born on the Continent of Europe, the country of birth as it was constituted in 1936 was to be reported. For example, persons born in what constituted Austria before the German invasion of 1938 were to be reported as born in Austria and not in Germany.

Length of Residence, etc.—In order to obtain statistics of the movement of population in Canada, a series of questions was asked of every person. All persons were asked if they had ever resided elsewhere than in the province where they were residing at the time of the census. If the answer was in the affirmative they were asked to give the number of years of continuous residence in the present province. Temporary absence up to a year was not counted as residence in another province. In addition, all persons who declared themselves as having resided elsewhere than in the province of residence at the time of the census, were asked to state the country or province of their previous permanent residence. The data thus collected will be found in Tables 22 to 24 of this volume.

Immigration.—The period of arrival in Canada of all persons born outside of Canada and also of all persons who though born in Canada, had resided in another country for a period of one year or more was obtained.

For persons born in the British Empire, outside of Canada, if the immigration occurred in 1936, it was to be specified whether it had occurred before or after the month of June. The purpose was to determine whether or not these immigrants had completed five years of residence in Canada at the time of the census.

It should be remembered that the period of immigration and naturalization, "1940-41", used in Tables 28 to 33 includes only five months of 1941, i.e., January 1 to June 1, 1941.

Returning Canadian-born.—In the 1941 Census all Canadian-born persons who had been absent from Canada for a period of a year or more were asked to report a year of immigration. Canadian-born immigrants are thus included with other immigrants in Tables 28 to 32.

Citizenship and Period of Naturalization.—Every person was required to report his nationality or citizenship. The entry in this case was "Canada" for all persons owing allegiance to Canada. In the case of persons owing allegiance to another country, the name of the country was recorded.

The following persons were classified as of Canadian nationality:

1. Every person born in Canada unless he had subsequently become a citizen of another country.
2. Every person born outside of Canada whose father was a Canadian citizen at the time of that person's birth, unless such a person had become the citizen of another country.
3. Every British subject who had lived in Canada for five years after his entry in Canada as an immigrant.
4. Every woman who married a Canadian citizen.

3. *Né dans l'Europe continentale.*—Pour les personnes nées sur le continent d'Europe, le pays de naissance doit être inscrit tel que constitué en 1936. Par exemple, les personnes nées dans ce qui constituait l'Autriche avant l'invasion allemande en 1938 devaient être entrées comme nées en Autriche et non en Allemagne.

Durée de résidence, etc.—Afin d'obtenir des statistiques sur le mouvement de la population au Canada, une série de questions ont été demandées à toute personne. Toutes ont été priées de dire si elles avaient déjà résidé ailleurs que dans la province où elles habitaient à la date du recensement, et si la réponse était affirmative elles devaient donner le nombre d'années de résidence continue dans la province actuelle. Une absence temporaire jusqu'à un an n'a pas été comptée comme résidence dans une autre province. De plus, toutes les personnes ayant déclaré qu'elles avaient habité ailleurs que dans la province de résidence actuelle ont dû déclarer le pays ou la province de leur résidence permanente antérieure. Les données ainsi colligées paraissent dans les tableaux 22 à 24 du présent volume.

Immigration.—La période d'arrivée au Canada de toute personne née en dehors du Canada et aussi de toute personne qui, bien que née au Canada, avait séjourné dans un autre pays pour une période d'un an ou plus a été comptée.

Pour les personnes nées dans l'Empire Britannique en dehors du Canada, si immigrées en 1936, il devait être spécifié si c'était avant ou après le mois de juin. Le but était de déterminer si oui ou non ces immigrés avaient complété cinq ans de résidence au Canada à l'époque du recensement.

Il faut se rappeler que la période d'immigration et de naturalisation "1940-1941", employée dans les tableaux 28 à 33, comprend seulement cinq mois de 1941, soit du premier janvier au premier juin 1941.

Né Canadien revenant au pays.—Dans le recensement de 1941, toutes les personnes nées au Canada et qui en avaient été absentes pour une période d'un an ou plus devaient déclarer l'année de leur immigration. Les immigrés nés Canadiens sont ainsi inclus avec les autres immigrés dans les tableaux 28 à 32.

Citoyenneté et période de naturalisation.—Toute personne a été requise de déclarer sa nationalité ou citoyenneté. Dans ce cas, le terme "Canada" s'appliquait à toute personne devant allégeance au Canada. Dans le cas de personnes devant allégeance à un autre pays, le nom de ce pays devait être entré.

Les personnes suivantes ont été classifiées comme nationaux canadiens:

1. Toute personne née au Canada à moins qu'elle soit subseqüemment devenue citoyenne d'un autre pays.
2. Toute personne née en dehors du Canada dont le père était citoyen canadien à l'époque de la naissance, à moins que telle personne soit devenue citoyenne d'un autre pays.
3. Tout sujet britannique ayant vécu au Canada depuis cinq ans après son entrée au Canada comme immigré.
4. Toute femme ayant marié un citoyen canadien.

5. Every person of previous foreign citizenship who obtained naturalization papers in Canada.

Period of Naturalization.—Every person who had acquired Canadian citizenship by naturalization was asked to report the period of his naturalization.

Official Language.—Every person in Canada was asked whether or not he could speak English or French, the two official languages of Canada.

It should be noted that in Tables 36 to 40 under the heading of "Official Language" persons indicated as speaking "English only" or "French only" may also speak other languages and have a mother tongue other than English or French; the expression in these tables meaning that of the two official languages "English only" or "French only" is spoken.

Mother Tongue.—In addition to the official languages, the "mother tongue" of every person was ascertained. For census purposes, by "mother tongue" is meant the first language learned in childhood if still understood by the person. In censuses prior to 1941, "mother tongue" meant "the language learned in childhood and still spoken by the person". This change in definition should be kept in mind when comparisons are made with previous censuses.

Years of Schooling and School Attendance.—The total number of years of schooling of every person was ascertained in the census. This was to include the number of years a person attended any kind of educational institution such as primary school, technical school, secondary school, college or university. Persons attending night school or receiving private tuition were credited with the number of academic years equivalent to the work done.

In addition, the number of persons attending school at any time during the school year 1940-1941 was recorded.

Age of Women at First Marriage.—All women who were or had been married were asked to state their age (in completed years) at the time of their first marriage. For these women the number of children born and the number living at the census date were included in this inquiry.

N.o.s.—Not otherwise specified.—This term is used throughout this volume where, in the case of religious denominations, the only entry on the schedule was "Protestant" and it was not possible to determine to which of the Protestant denominations the person belonged. It is also used under "origin" to classify a certain number of persons reported as of Austrian origin and where it was not possible to determine whether these persons were of German or other origin.

Tabular Index.—A tabular index is given in this volume, following the table of contents. This index is intended to show at a glance the tables which are included on each subject and the other subjects by which each is cross-classified.

5. Toute personne antérieurement citoyenne d'un autre pays et qui a obtenu son certificat de naturalisation au Canada.

Période de naturalisation.—Toute personne qui a acquis la citoyenneté canadienne par naturalisation devait déclarer l'époque de sa naturalisation.

Langue officielle.—Toute personne devait déclarer si elle pouvait parler l'anglais ou le français, les deux langues officielles du Canada.

A noter que dans les tableaux 36 à 40 sous l'en-tête "Langue officielle", les personnes indiquées comme parlant "Anglais seulement" ou "Français seulement" peuvent aussi parler d'autres langues et avoir une langue maternelle autre que l'anglais ou le français; l'expression, dans ces tableaux, signifie que des deux langues officielles "l'anglais seulement" ou le "français seulement" est parlé.

Langue maternelle.—Outre les langues officielles, la "langue maternelle" de chaque personne a été établie. "Langue maternelle" signifie la langue première apprise dès l'enfance si elle était encore comprise par cette personne. Dans les recensements antérieurs à 1941, "langue maternelle" signifiait "la langue apprise dès l'enfance et encore parlée par la personne". Ce changement dans la définition doit être noté en faisant des comparaisons avec les recensements antérieurs.

Années d'école et fréquentation scolaire.—Le recensement a noté le nombre d'années d'école de chaque personne. Le but était d'établir le nombre d'années pendant lesquelles une personne a fréquenté l'école dans une institution enseignante quelconque comme: école primaire, école technique, école secondaire, collège ou université. Les personnes fréquentant une école du soir ou recevant des cours privés ont été entrées. Les années de cours privés ou d'école du soir ont été comptées comme équivalent d'années académiques.

De plus, le recensement a relevé le nombre de personnes fréquentant ou ayant fréquenté une école quelconque pendant l'année scolaire 1940-1941.

Age des femmes à leur premier mariage.—Toutes les femmes qui étaient ou qui avaient été mariées devaient donner leur âge (en années complètes) à la date de leur premier mariage. Elles devaient également déclarer le nombre d'enfants nés et le nombre d'enfants vivants qu'elles avaient à la date du recensement.

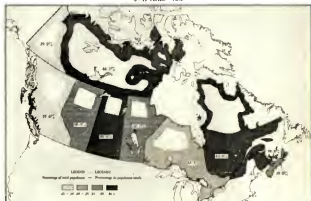

N.a.é.—Non autrement énumérée.—Cette expression est employée dans ce volume partout où, dans le cas des religions, l'unique entrée sur le questionnaire était "Protestante" et où il a été impossible d'établir à quelle secte protestante la personne appartenait. Elle est aussi employée sous "origine" pour le classement d'un certain nombre de personnes inscrites comme étant d'origine autrichienne et où il n'a pas été possible d'établir si ces personnes étaient d'origine allemande ou autre.

Index des tableaux.—Il y a un index des tableaux paraissant dans ce volume à la suite de la table des matières. L'index a pour but de montrer en un coup d'œil les tableaux qui sont inclus sur chaque sujet et les autres sujets pour lesquels il y a des recoupements.

APPENDIX B

Description of Metropolitan Areas

For Census purposes, the 'greater' cities, (or metropolitan areas), indicate those cities having well-defined satellite communities which are outside the boundaries of the cities proper, but are in close economic or geographical relationship to them.

The following table shows the areas and population at the 1941 Census included in the metropolitan areas of Montreal, Toronto, Vancouver and Winnipeg.

APPENDICE B

Description des zones métropolitaines

Pour fins de recensement, les 'grandes' cités (ou zones métropolitaines) sont celles qui ont des communautés satellites bien définies en dehors des limites des cités proprement dites, mais en étroite relation économique ou géographique avec elles.

Le tableau suivant donne les localités avec leur population au recensement de 1941 comprises dans les zones métropolitaines de Montréal, Toronto, Vancouver et Winnipeg.
